GitHub: github.com/adityapratap0077-cloud

OBJECTIVE

Detail-oriented and adaptable professional with a solid foundation in Biotechnology and hands-on experience in AI tool integration and web interface design.

Passionate about leveraging analytical skills and modern technology to drive efficiency, optimize workflows, and build creative digital solutions.

Seeking opportunities to apply interdisciplinary skills in roles that combine scientific rigor with innovative technological application.

EDUCATION

B.Sc. Honors Biotechnology (5th Semester)

Bundelkhand University, Jhansi

PROFESSIONAL EXPERIENCE

AI & Web Development Strategist — Independent Projects | 2024 – Present

- Utilized advanced AI tools to optimize technical workflows and assist in web development through 'vibe coding' methodologies
- Developed multiple websites leveraging modern frameworks such as Anti Gravity and Stitch, demonstrating proficiency in contemporary web interface design and implementation
- Applied keen visual aesthetics and design principles to produce cinematic, moody, and editorial-style digital assets for web interfaces
- Implemented prompt engineering to streamline project management and digital problem-solving

SKILLS

Scientific & Analytical:

Biotechnology fundamentals, research methodologies, and data analysis

Digital & AI Tools:

Prompt engineering, AI-assisted workflow optimization, web interface 'vibe coding,' Anti Gravity, Stitch

Design & Aesthetics:

Visual aesthetics, digital asset curation, and editorial-style design

Soft Skills:

Problem-solving, adaptable learning, project management, and cross-disciplinary communication
